TURKISH SOLDIERS ARE IN REVOLT
TRAGEDY AT BERKELEY---DEATH OF PROF. KELLOGGWILL NOT
RAISE THE
COUNTY.

State Board Likely to
Leave the Assess-
ment Alone.

Assessor Dalton and His
Deputies Called At
Sacramento.

(Special to the TRIBUNE.)
SACRAMENTO, August 26.—The State Board of Equalization held an hour's investigation into property values in Alameda county today and was apparently quite satisfied with the showing made.

Assessor Henry P. Dalton was before the board nearly all the time and had quite the easiest time he has had in many years when he appeared on similar missions.

Accompanying Assessor Dalton were Thomas Robinson, his chief deputy; Henry Dexter, mortgage clerk and Deputies H. H. Winnegar and G. W. Detjen of Murray and Pleasanton townships, respectively, and John Mitchell, of Oakland, chairman of the Alameda Board of Supervisors.

According to the returns submitted by Assessor Dalton, the county shows increase in its assessment roll of \$16,074,884 this year over the assessed valuation for 1902.

The greater part of this increase comes from the enhanced value of realty and improvements.

Assessor Dalton and Chief Deputy Robinson were the only members of the Alameda county delegation, who were asked questions. And their examination was nothing in the way of an ordeal, such as Dalton has gone through in the past.

The attitude of the board is taken as an indication that Alameda county will not be raised, although nothing was said which could be construed to mean that the assessment will not be increased.

Assessor Dalton stated he had assessed properties in Alameda county for all they could reasonably be expected to stand and that the board could not, in justice to the property owners, make any increase.

He pointed out that last year's valuation was \$86,899,897, while this year he had increased it to \$106,874,884, an advance of \$16,074,884.

In answer to a question by Chairman Alexander Brown, Dalton stated he believed the tendency of the values in Alameda county to be upward, the bottom prices having been reached in 1898. Since that year the recovery has been steady.

Equalizer W. H. Alford asked about the condition of the wine industry, and Deputy Assessor Winnegar stated the

WAYNE M'CLLOUD.

SENT BULLET IN BRAIN IN
PRESENCE OF FIANCÉE.

Wayne M'Cloud Kills Himself As
He Was About to Wed Miss
Margaret Matthews.

BERKELEY, Aug. 26.—A college ro- fracted to the scene by the noise of the

surmised double tragedy.

It was believed by those who first arrived to where the lovers lay prostrate that a double tragedy had been committed. Dr. J. Edson Kellogg was hurriedly sent for and although he arrived in a few minutes he announced that McCloud was dead. A gaping wound in his head told the tale and there was nothing to do but to send for the Coroner.

The tragedy, which has startled col- lege circles and the city, as no other event of a similar nature ever has, was enacted on the sidewalk within a few doors of the residence of Miss Matthews' parents, Rev. and Mrs. Winfield Matthews, 2009 Lincoln street.

The young couple had just returned from San Francisco on the seven o'clock train and were nearing the residence where the wedding was to have taken place when McCloud turned to his fiancée and said: "Well, Margie, I'm going now. Good bye." Pulling out of his pocket a revolver, the existence of which his fiancée had not dreamed of, he pressed it to his right temple and fired.

At first Miss Matthews believed her lover to be joking but the ringing out of the shot convinced her of the grim reality. Catching the prostrate man in her arms she bore him tenderly to the sidewalk, at the same time moaning pitifully and calling for a doctor. Then she swooned over the remains of the man who was to become her husband and was found lying beside his prostrate form by the members of her family and neighbors who had been at

temporarily insane.

At loss to account for a motive which would lead McCloud to take his life, it was at once attributed to a fit of temporary insanity following queer actions on his part for several weeks past. It was about two months ago that his mental health began to fail. At that time he was assistant editor of the Student Supplement of the Examiner, but without any advancement, was placed on the copy desk in the local news-room of the paper. The task proved to be too arduous for him and his constant worry over the place led to his mental breakdown.

UNIVERSITY ROMANCE.

It was in the class-rooms of the State University that the young couple first formed their attachment for each other. A member of the Delta Tau Delta Fraternity, a Lieutenant in the University Cadets, and a leader in his studies, young McCloud proved an acceptable companion to the young woman whom fate had decreed that he should not wed. The attachment that sprang up between them was mutual and while their engagement was never formally announced, it was known to be a fact. The friendship did not die out with graduation when McCloud, who took his diploma with the class of 1899, sought journalistic fields, and Miss Matthews, who left college with full academic honors at the same time, accepted a teacher's position in the school at Pacific Grove. About a year ago Miss Matthews returned to Berkeley to become a teacher in the Winter School and it was shortly after that time that a date for the wedding was talked about.

SECURED MARRIAGE LICENSE.

It was last Sunday that McCloud telephoned from San Francisco to the Matthews' residence. When asked by Miss Matthews where he was he said: "I don't know where I am. I think I am somewhere out on Sutter street, in San Francisco. Won't you come over here?"

This formed the first intimation of the acuteness of the mental trouble, divining that it would be better for the young man to spend the night at her parents' residence than to wander aimlessly about the streets of San Francisco, she invited him to come to Berkeley. McCloud accepted the invitation. He arrived on the ten o'clock

SOLDIERS
ARE NOT
PAID.

Five Monarchs Will Dis-
cuss the Balkan
Question.

Three Hundred People
Said to Have Been
Massacred.

LONDON, August 26.—According to a dispatch from Belgrade, Serbia, many of the soldiers belonging to the reserves called out by Turkey, are refusing to join the colors, as the troops in the field have not received any pay for months.

In calling more energetic measures for the suppression of the rebellion, Turkey is acting in accordance with the advice of the powers.

The forthcoming conference of King Edward with Emperor Francis Joseph and the Czar of Russia and the Emperor of Vienna, will enable the researchers to discuss Balkan affairs thoroughly, and before the conclusion of the conferences, Turkey proposes so far as possible to remain out of the international national action, which will be unnecessary.

An official of the Turkish embassy here said to a representative of the Associated Press today:

"The calling out of additional troops by Turkey is due solely to the decision to suppress the insurrection at once. It is not in anticipation of war with Bulgaria. Turkey has no intention of declaring war, and the idea of running into the country and Bulgaria would be the last thought. Bulgaria was won over by the Turks, and we do not see at this moment to implement hostilities. We know what public opinion is in Bulgaria and how the situation may change tomorrow, but, in the meantime, Turkey proposes to lose no time in restoring peace."

RUMORS OF MASSACRES.

SOFIA, August 26.—A private telegram from Dubrovnik says that a number of Bulgarian officers, who, it is believed, recently crossed their way past the Turkish post at Petria and now occupy an unassassinated position. Rumors are current here of serics massacred at Asenov and Kink-Kliessi. Three hundred persons are said to have been killed.

MORE SOLDIERS.

CONSTANTINOPLE, August 26.—The government has decided to call to the colors all the remaining European ser- vices belonging to the second and third army corps, and a number of other regiments which will bring the total of the Turkish soldiers in Macedonia up to 360 battalions, or almost double the number utilized in the Turkish-Greek war.

The enrollment of such large bodies of troops indicates the seriousness with which Turkey views the situation and her determination to use all the means at her disposal to suppress the rebellion. The new commander of the troops is a young and able officer, Seven battalions have been dispatched to Florina from Monastir.

The walls of Monastir and Salonic telegraph that they are now able to guarantee the maintenance of order in their respective towns.

At that time the company desired to obtain the bulkhead line on Seventh street and reduce the channel width to a width of 26 feet. City Engineer Turner said an obstructed channel at least 200 feet wide was necessary to preserve the hydraulic action of the lake. Meltzer and Mattingly are claiming ownership of the main lake sewer, which is two miles long, and is the relieving artery for a large subsidiary sewer system.

HE KNOCKED THE COV. FROM PLATFORM.

SUPREME JUDGE ASSAULTS GOV.
DAVIS AT LITTLE ROCK.

ST. LOUIS, August 26.—A special to the Post-Dispatch from Little Rock, Ark., says:

Judge Carroll T. Wood of the Arkansas Supreme Court, who is opposing Governor Davis as candidate for a third term, knocked Governor Davis off a speaking platform, four feet to the ground, during the campaign at Eureka Springs yesterday.

Governor Davis was not hurt and friends prevented further trouble.

Judge Wood was immediately arrested on a charge of assault and battery. Governor Davis publicly asked Judge Wood questions and before they could be fully answered, interrupted with more questions, which so angered Judge Wood that he knocked Governor Davis from the platform.

Later the matter was adjusted and Judge Wood returned to Little Rock today.

WILL BUILD SAFETY STATION.

Preliminary plans have been begun by the Oakland Transit Consolidated to build, at its own expense, an ornamental safety passenger station at the junction of Broadway, San Pablo avenue, and Fourteenth street on lines similar to the street platform recently installed on Market street, San Francisco, opposite Lotta's Fountain, at the instance of the Merchants' Association of that city.

Mr. George W. Clegg, of the Transit Consolidated, made a personal inspection of the site for the proposed station yesterday to determine, in a general way, how best to locate the convenience. A network of tracks crossing and intersecting all the streets in the area from the Ferry to the numerous car lines. The Fourteenth street tracks will be extended soon across Broadway to give through connections with the line that will operate on the new station, which will be east and north to the Ferry. The electric trams which will operate on San Pablo avenue will have terminus in the vicinity of the Fourteenth street junction. The station will be the one of the heaviest centers of travel. For the sake of protection and convenience of travelers the safety station will be built. Details of design have not been worked out, but the general scheme comprehends an ornate structure of stone.

WRECKAGE MAY BE CATHARINA.

POR T TOWNSEND, Wash., August 26.—Shipping men at this port fear that wreckage found on Queen Charlotte Islands, including a boat marked "Catharin," is from the Norwegian bark

"Catharin," which sailed from here June 21, lumber-laden from Norway for Victoria Bay. When the Catharin left, she carried a heavy deck-load, and a heavy list. On June 6th and 7th heavy southerly gales prevailed off the coast of Washington and Vancouver Island, and it is probable that, owing to the leaky condition of the vessel she was thrown on her beam end and was driven northward during the storm. She carried, including officers, a crew of fourteen men in command of Captain Samuelson.

LABORERS AND OPERATORS CONFER.

PITTSBURG, August 26.—An important joint conference of the wage committee of the three large window-glass companies and the representatives of the two organizations of window-glass workers is being held here today. It is the purpose of the window-glass committee to obtain agreements with the two unions to a strike of the coming firms. The window-glass market is in bad shape, the surplus supply having been large. To work this off without adding to it by the product of coming fire is the desire of the manufacturers.

ADVISORY COUNCIL.

The advisory council of the Boys' Retreat held its first meeting last night.

Frank K. Mott was elected chairman; John P. Cook secretary and auditor, and the Central Bank treasurer. Popular meetings are to be held on the third Monday of February, March, April, and May.

Among other business transacted, a resolution was passed requesting the Associated Charities to endorse the work of the Boys' Retreat.

F. E. Mumford, who founded this institution, has successfully filled the position as superintendent, will continue to act in this capacity. In the future, Mr. Mumford will be advised on all important matters concerning the improvement and advancement of the work.

PROHIBITIONISTS MEET.

The Oakland Prohibition Alliance held an enthusiastic meeting last evening and were addressed by Rev. George H. De Kay of Los Angeles. His subject was "Unwashed Islands," and made a profound impression on his hearers. There were several other speakers and a number of musical selections. The alliance will celebrate its second anniversary next month.

WILL SOON GO TO SEA.

The new revenue tug Arcata, which was built at Boole's yards will be ready for sea next month. The vessel will not be employed here, but will proceed to Puget Sound.

AH GEE MUST WAIT.

The case of Ah Gee, charged with selling lottery tickets, was continued this morning in the Police Court until September 5th.

CASE IS CONTINUED.

In the Police Court this morning, the charge against Fred Johns of disturbing the peace was continued for trial until the 5th of next month.

CHILD HAS A RARE VOICE.

MISS MADELINE FOX.

(Photo Shaw & Shaw.)
Miss Madeline Fox is the daughter of Mr. and Mrs. A. H. Fox. She is a talented singer and is said to have a remarkable voice for a child.

DEMOCRATS ARE ASSEMBLED IN CONVENTION.

Ohio Democrats Adopt Platform Reaffirming National Issue of 1902
—J. H. Goedek Elected Chairman.

COLUMBUS, O., August 26.—Although the "fighting" was all over last night, the auditorium and galleries were packed long before T. J. Frey, chairman of the State Central Committee, called the Democratic State Convention to order at 10:30 today.

Before the convention assembled, some of the Johnson men who are opposed to Clarke, offered again to support John Zimmerman for Senatorial endorsement, but Zimmerman would not accept.

Mayon Johnson was loudly cheered as he entered the hall.

After reviewing the work of the past campaign, Mr. Frey announced the temporary organization and introduced G. M. Saltzgaber as temporary chairman.

The majority report on credentials for seating the Johnson delegates from Hamilton, Gallia, Miami, Ross and Scioto counties, was greeted with cheer.

Then followed the minority movement, first with a motion relative to the leaky condition of the vessel she was thrown on her beam end and was driven northward during the storm. She carried, including officers, a crew of fourteen men in command of Captain Samuelson.

J. H. Goedek of Wapakoneta was then elected and introduced as permanent chairman and addressed the convention. Majority and minority reports on rules and order of business were presented.

The former provided for the endorsement of a candidate for Senator. General E. C. Frey, reporting the minority report, declared there was no "boss" of Johnson being called as much of a boss as Hanna." The majority report was adopted, 446 to 211.

This was the first test on a roll call between the Johnson and Zimmerman men. The majority report on rules with provision for the endorsement of a candidate for Senator was then adopted, after which the Committee on Resolutions reported the platform, which was adopted as follows:

"Assembled in convention at Columbus, preparatory to the State election of 1902, we, the Democrats of Ohio, reaffirm

assessments of some mortgages held by the different savings banks in Oakland. This falling off showed a loss of 14.3 per cent, Beamer said, and he wanted to know the cause of the slump.

The board had no data at hand by which the mortgages referred to could be identified. Assessor Dalton said if he had been advised of what the board wanted, he would cheerfully have secured the desired information.

He was of the belief, however, that the reductions had been made for the reason that the values of surrounding property were not as high as the original values of the properties on which the mortgages were originally given. This ended the board's inquiry. Equalizer Beamer said he was gratified to see the increase of over \$16,000,000 shown by Alameda county.

GIVES \$500 TO STRIKERS.

CRIPPLE CREEK, Colo., August 26.—The officers of the local miners' union received a check for \$500 from a gentleman giving his name as Henry M. Birge, who is a retired mining official. He gave the check to be used in relieving the necessities of strikers' families. Birge gives Otter Creek, Colo., as his home and his New York address as 36 West Thirty-ninth street.

Regarding the assessment of railroads, Dalton stated in response to inquiry by Chairman Brown, that the local roads assessed by the Board of Equalization had reduced it to the nominal sum of \$1.

Regarding the assessment of railroads, Dalton stated in response to inquiry by Chairman Brown, that the local roads assessed by the Board of Equalization were not included in his return.

Equalizer Beamer then started to take up the question of the falling off in the

charge of Fred Johns of disturbing the peace was continued for trial until the 5th of next month.

CITY ATTORNEY DISEASE OF MANY TO MARRY.

JOHN E. McELROY WILL WED MISS HAAS OF HAY- WARD.

HEALTH BOARD'S EFFORTS TO PREVENT EXTENSION OF CONTAGION.

One week from tonight, Wednesday, September 2, City Attorney John E. McElroy, will be married to Miss Anna E. Haas, of Hayward.

The ceremony will be performed at 7:30 o'clock p.m. in All Saints' Church at which Rev. Father John Lally, the pastor of the church will officiate.

The marriage will be a very quiet affair, no cards being issued, because of recent bereavement in the family of the groom.

The musical service on the occasion will be rendered by the choir of All Saints' Church of which the bride prospective has been a leading member for some years.

The reception which will follow the marriage, will be held at the home of the bride's mother, Mrs. Catherine Haas, in Haywards and will be confined to members and near relatives of the families of the contracting parties.

After the reception, the bride and groom will enjoy a short honeymoon because the demands of his office will not permit Mr. McElroy to remain long away from his office 1 square of duty.

Miss Haas is a young woman who is richly endowed with graces of feature and disposition and is the possessor of many talents which cultivation has rounded into accomplishments which make her a welcome member in the social circles in which she moves. Her family is in comfortable circumstances and has been long numbered among the best known people in the interior of the country.

City Attorney McElroy is similarly situated in many respects in this community to his bride. His family is one of the oldest in this section. Mr. McElroy has grown up in Oakland, has been educated here and has attained to success in his chosen profession of the law, as have few of the young men who started out in the same avocation with him. Popularitv accompanied his proficiency before he became a fact which has been attested by the liberal plurality with which he was inducted to the office of City Attorney at the last spring election. Mr. McElroy is a member of several fraternal orders and is highly esteemed in all of them.

Mr. and Mrs. McElroy will reside in Oakland.

The substitution of self-cleansing faucets at the public schools for the old fashioned ones has been deemed advisable because it is admitted that scholars acting from the hydrant faucets and thus communicate disease to one another. It is also admitted that children cannot be prevented from slaking their thirst at hydrant faucets, hence the necessity of having a faucet of a self-cleansing character which would prevent the dissemination of disease.

At the meeting of the Board of Health tonight the following subjects will be considered: Monthly and annual reports, the advisability of framing a new and more stringent plumbing ordinance, the advisability of keeping, for a longer period than is now required, signs on houses, denoting the quarantining of contagious diseases, the recommendation to the Board of Education of the use of a self-cleansing faucet in public schools and the recommendation of the Garbage Committee, recommending the abolition of the garbage dump in this city.

The idea of still longer placarding houses in which contagious diseases are quarantined has been suggested by the fact that cases of infection have resulted in a number of instances from taking down cards on the representation of physicians that the affected persons had been cured. The purpose seems to be to retain placards in place until no longer doubt can be entertained as to the convalescence of the subject.

The substitution of self-cleansing faucets at the public schools for the old fashioned ones has been deemed advisable because it is admitted that scholars acting from the hydrant faucets and thus communicate disease to one another. It is also admitted that children cannot be prevented from slaking their thirst at hydrant faucets, hence the necessity of having a faucet of a self-cleansing character which would prevent the dissemination of disease.

POPE RECEIVES ARCHBISHOP.

ROME, August 25.—Cardinal Moran, Archbishop of Australia, was received today in private audience by Pope Pius and presented to the pontiff the contributions of the Catholics of Australia.

The Pope was very much pleased and said that the telegram which Cardinal Moran had dispatched to him from Cayon had given him the greatest pleasure.

He thanked the prelate heartily and informed him of the apostolic blessing which he also bestowed on the faithful of Australia.

The audience lasted half an hour. Pope Pius is particularly pleased at the presence of Cardinal Moran in Rome, as with his meeting with the latter, he has now seen every foreign cardinal.

WILL WORK IN FORESTS.

SACRAMENTO, Aug. 25.—Gifford Pinchot, United States Forester, head of the Bureau of Forestry of the United States Department of Agriculture, and his assistants, William C. Dodge and A. F. Potter, were in consultation with Governor Pardee and the other members of the State Board of Examiners this morning relative to their work in this State.

Mr. Pinchot and his assistants have been in the forests of this State since last June.

Under a recent act of the Legislature the sum of \$15,000 was appropriated to enable the State to co-operate with the general Government in devising a proper forestry policy for California, and although Mr. Pinchot has an efficient corps in the field who will be at work for two years, he comes to direct the work of his forces personally.

He will be in this State until about September 15th, when he will go to Ogden to attend the national irrigation congress at that place.

OLD SOLDIER IS DEAD.

LODI, Cal., August 25.—Dr. Charles Howard Gordon died here last night, aged 70 years and 8 days.

Deceased was graduated at Christ College, London, and was an officer in the Queen's navy. He came to America at the time of the Civil War and served as a captain in Company E, Third Rhode Island Cavalry. He came to California at the close of the war and completed his studies and began the practice of medicine.

He was a prominent Democratic leader and was frequently chairman of delegations. He was married in 1880 to Emily Stafford of San Francisco, who survives him. The body will be taken to San Francisco tomorrow under the escort of Masons, Foresters and United Workmen. The remains will be interred and the ashes scattered on the bay of San Francisco.

AMERICAN BARK IS REINSURED.

HONOLULU, August 25, 7:15 a. m.

The commercial advantages of the Pacific cable were again demonstrated today. Its existence permitted the re-insuring of the American bark, Helen Brewer, now out 172 days from Sourabaya for Delaware, breaker with a cargo of sugar. The vessel was insured at 90 per cent. Speculation on the arrival of the vessel at her destination has been very active here and several pools have been formed to gamble on the proposition. Money has been called to San Francisco reinsurance brokers several times, the gamblers having great faith in the seaworthiness of the Brewer and her ability to reach the Delaware breaker. The Helen Brewer was last sighted on July 22d in the vicinity of St. Helena.

BIG LINER WAS BADLY DAMAGED.

SUSPENDS TRAINER FOR ONE YEAR.

ST. PETERSBURG, August 25.—John Oliver Keine of Lexington, Ky., a trainer, has been suspended for a year owing to the alleged drugging of a horse. A stable with which Keine was connected has met with phenomenal success.

During the last five months it has won \$100,000. Keine denies the charge and has appealed to Grand Duke Constantinevitch, the protector of Russian racing.

REPORT OF THE AFRICAN WAR.

LONDON, August 25.—The report of the royal commission on the South African war was issued today. It adds little information to that already published.

Another member of the commission, an Australian, says that every boy of 17 who is physically fit, should be compelled to undergo a course of training in national cadet schools, which should be created throughout the country.

REPORT IS DENIED.

LONDON, August 25.—Director-General Ballin of the Hamburg-American line, who is in London, today denied the report that the meeting here yesterday of directors of the German-Atlantic Steamship line was in connection with negotiations for an Anglo-German combination in the Atlantic trade.

Photographic Parisienne.

Belle-Oudry, Thirteenth street, between Washington and Broadway.

BILLY OTTS WINS IN THE NINTH ROUND.

Toby Irwin Had a Broken Jaw and Was Compelled to Give Up-Game Fight.

A terrific right broke Irwin's jaw in the fifth round of his bout with Billy Otts and in the last part of the ninth another blow to the same place made it impossible for Irwin to continue the fight and Referee Eddie Smith accordingly gave the decision to Otts, although at that stage it looked as if Irwin had all the best of it, and would win in a few more rounds.

The fight put up by the two boys far surpassed all expectations. Both fought hard and fast through out and Irwin who has often been proclaimed as faint-hearted, displayed a wonderful amount of courage and grit, continuing the contest for four rounds, though badly broken jaw, and during all this he never uttered a complaint and no one knew the true state of affairs with him.

Harry Foley, one of his seconds discovered it in the minute between the ninth and tenth rounds and refused to allow his man to go on with the contest. Otts displayed much cleverness in the early part of the fight and had everything his own way. After the fifth round he seemed to tire and in the eighth he seemed to be all in.

The big gymnasium of the Reliance Athletic Club was well filled with spectators and everything was carried on according to schedule. There was no delay and all of the contests were clean, affording the crowd a great deal of entertainment. The first preliminary was commenced shortly before nine o'clock and the finish of the main even occurred a few minutes after ten.

As soon as the men were in the ring George Fuller was introduced and challenged the winner to a contest. Billy Woods of Los Angeles climbed through the ropes and was introduced to the crowd and he announced that he wished to challenge any middleweight on the coast. Jack Ryan of Chicago took occasion to challenge any 128-pound man that cared to go battle with him. The crowd called for him and when he climbed through the ropes in response to the challenge, out he was roundly cheered. He was introduced and then time was called for the first round of the Irwin-Otts fight.

The men were quickly in the center of the ring and Irwin immediately assumed a defensive mode of fighting, landing Otts to do all of the leading. There was very few exchanges in the first round and both seemed to be trying to draw the other out. They were in and out of clinches almost continually. In the second round Otts put a hard one on Toby's nose bringing the first blood and the latter was dazed. Otts was strong and went after his man, rushing him about the ring landing rights and lefts frequently. Toby stalled as much as possible and managed to keep his feet until the end of the round although he was pretty groggy.

In the third round Irwin came up fresh from the short rest and in the first exchange landed a stinging left on Otts' nose that brought blood. Toby began to gain confidence and used his peculiar left-hand jab quite frequently. Both appeared to be very tired and worried when the gong sounded although Otts had a little the best of the round. In the fourth round Otts was again aggressive and both showed more inclination to mix, doing less sparring and clinching. Both of them were glad when the gong sounded.

RYAN IS STRONG AGAIN.

HE MAY MEET JACK O'BRIEN BEFORE YOSEMITE CLUB IN NOVEMBER.

It is more than probable that Tommy Ryan and Philadelphia Jack O'Brien will meet in San Francisco next November after the middle-weight championship of the world.

Ryan has greatly surprised his friends by the way in which he has put on flesh, in the last two or three months. He is anxious to fight O'Brien at the Yosemite Club and has already tendered his services for the November date.

In speaking of his great improvement in health and condition, Ryan said yesterday:

"You don't know how good I feel, am as strong as a bear and when return East, those people who gave out stories saying that I had consumption and was unfit for battle will be ashamed to look me in the face. I want to fight O'Brien because I believe I can beat him."

Harry Corbett of the Yosemite Club would like to see the match come on November.

DEVEREAUX MAY PLAY.

Judge Wells of Contra Costa county has refused to grant the Helena baseball team an injunction restraining big Bill Devereaux from playing with the Oakland nine. Judge Wells was asked to sit on the case by Judge Henry A. Melvin and after hearing the arguments took the matter under advisement and took down his decision yesterday. The matter has been in suspense since the beginning of the baseball season.

LABOR DAY PICNIC WILL BE A LARGE AFFAIR.

Thousands of Tickets Have Been Sold by the Labor Union Men—Meetings Held Last Night.

ALIED PRINTERS
TRADES UNION LABEL COUNCIL
OAKLAND CAL.

From present indications the picnic that is to follow the Labor Day parade is going to be a large affair.

Already its magnitude has made it necessary to secure the Jockey Club grounds across the track from Shell Mound Park in which to hold the games. Five thousand tickets have been disposed of on this side of the bay and 3000 more are ordered while among the unions in San Francisco the sale of tickets for this function has been enormous. A varied program of interest has been arranged to please the patrons. The Material Teamsters and the Cement Workers' Unions have put up a cash prize of \$50 for a tug of war, and many other unions have announced cash prizes for various contests. The elephant that is to carry the banner in the San Francisco parade for the paper hangers is to be transported to the race track as a feature of the day.

There will be a "Bronco busting" act that is guaranteed to be both strenuous and amusing and a hundred-yard dash for a prize between J. B. Bowen, business agent for the Building Trades' Council and Frank Mosler, business agent for the Painters' Union, that will afford a lot of fun for those who are fortunate enough to witness it.

Transportation facilities of the steam and traction roads will be taxed to the utmost to accommodate the throngs of participants and the various transportation companies have assured the committee in charge that they will "do their level best" to handle the traffic. This picnic will fittingly close the largest public demonstration of any kind ever held in Alameda County.

OFFICIAL INFORMATION.

The following official circular is being sent out from the headquarters of the Labor Day Celebration Committee for the information of all interested.

"Labor Day (September 7, 1903) is close at hand, and the Labor Day Celebration Committee consider it proper to inform the Unions of Alameda County of the progress made and what is expected from the Unions to make Labor Day of 1903 a memorable one in the annals of Alameda County.

"The parade will consist of five divisions, each division headed by a band of music, and will commence at 9:30 A. M. sharp. The following line of march has been decided upon:

"Divide to start from Second and Broadway; Broadway to Seventh street, Seventh to Washington; Washington to Fourteenth; Fourteenth to Clay; Clay to Seventeenth and San Pablo avenue; down San Pablo avenue and Broadway to Seventh; counter-march on Broadway and disband at Eighteenth and San Pablo.

"Reviewing stand of Judges to be located at Fourteenth and Broadway.

"All Unions will form on streets

south of Seventh and off Broadway on either side.

"Location of Unions in parade will be decided at the next meeting of the committee to be held on Friday evening, August 28, and the information will be published in the daily papers. Any Union not in line at time of the start will forfeit its position and the next Union in line will be substituted.

"Each Union is requested to select a Marshal; such Marshal to be under the jurisdiction of the Division Marshal, who in turn will be under the orders of the Grand Marshal and his aides.

"The Marshals are required to attend a meeting called by the Grand Marshal on Sunday, September 6, at 10 A. M., at Building Tradesman Hall, Eleventh and Broadway. When full instructions will be imparted, thereby reducing the chances for confusion to a minimum.

"The committee has accepted the generous offer of the Building Trades' Council of San Francisco to participate in the picnic to be held at Shell Mound Park in the afternoon and evening. "All printing for the picnic will be furnished by the Building Trades' Council of San Francisco, including cooks and waiters' headquarters on Eighth street.

"The proceeds of sale of tickets will be divided between the Federated Trades' Council and the Building Trades' Council of Alameda County. "The members are requested to procure their tickets to the picnic on this side of the bay, as we will not receive any benefit from tickets procured at the gate.

"J. B. Bowen will act as Grand Marshal and his aids will be W. P. Petty and W. J. Bacus.

"Treasurers must make remittances before September 7th. The secretary can be seen at the two next meetings of the committee, which will be held on Friday evenings, at Cooks' and Waiters' Headquarters, southwest corner Eighth and Broadway. Respectfully submitted,

"JOSEPH B. REBOLI,
"Chairman,
"WM. E. SCULLY,
"Secretary,
"No. 459 Eleventh street, Oakland."

CEMENT WORKERS.

This union is in a flourishing condition and all its members are at work. A large majority of them were in attendance at the meeting held last night and participated in the discussion of business. Twelve were initiated to membership. The union will parade about 125 strong, and will be uniformed in a white hat, black shirt, white duck pants, blue cap and light tie, all of which is to be done and should be paid for from the funds of the organization.

J. Britton was chosen to marshal the cement-workers while in line, and the marchers are expected to report for the parade at Kiel's & Chase Hall, Eleventh and Broadway, 8:30 o'clock on Labor Day morning. \$20 was voted for the relief of a sick brother. All are working and conditions are prosperous. The regular meetings of this body are held on the second and fourth Tuesday evenings of each month.

MILL-OWNERS.

Regular business session of the Mi-

Owners' Association was held at 11104 Broadway last night for the transaction of routine business, and an early adjournment was made, as no public import was under consideration.

HORSESHEOERS.

"See that the 'H. Shoe' is on the shoes your horses wear" is the slogan of the horseshoers at the present time, because it is the union branded article that is to be insisted upon by the men after the first of the coming month. The horseshoers will go to the master sheoer in having their new agreement approved. Three new members were mustered into the ranks last night.

It has been decided to hold a State convention of the horseshoers in this city in the near future, although the date is not yet determined upon, and it is confidently expected that this gathering will be productive of great good to the craft not only in California, but throughout the coast.

MACHINISTS.

A brief session of the Machinists' Union was held at the California Hotel last night, but business was transacted with a rush. Four members were admitted to the body at the meeting, the body decided to parade in force and announcement was made of the organization of a new local body at West Oakland, which will join the parent organization on parade day.

STALSMEN.

"Location of Unions in parade will be decided at the next meeting of the committee to be held on Friday evening, August 28, and the information will be published in the daily papers. Any Union not in line at time of the start will forfeit its position and the next Union in line will be substituted.

"Each Union is requested to select a Marshal; such Marshal to be under the jurisdiction of the Division Marshal and his aides.

"The Marshals are required to attend a meeting called by the Grand Marshal on Sunday, September 6, at 10 A. M., at Building Tradesman Hall, Eleventh and Broadway. When full instructions will be imparted, thereby reducing the chances for confusion to a minimum.

"All printing for the picnic will be furnished by the Building Trades' Council of San Francisco, including cooks and waiters' headquarters on Eighth street.

"The proceeds of sale of tickets will be divided between the Federated Trades' Council and the Building Trades' Council of Alameda County.

"The members are requested to procure their tickets to the picnic on this side of the bay, as we will not receive any benefit from tickets procured at the gate.

"J. B. Bowen will act as Grand Marshal and his aids will be W. P. Petty and W. J. Bacus.

"Treasurers must make remittances before September 7th. The secretary can be seen at the two next meetings of the committee, which will be held on Friday evenings, at Cooks' and Waiters' Headquarters, southwest corner Eighth and Broadway. Respectfully submitted,

"JOSEPH B. REBOLI,
"Chairman,
"WM. E. SCULLY,
"Secretary,
"No. 459 Eleventh street, Oakland."

CEMENT WORKERS.

Last night a conference was held across the bay between the master sheet-metal workers, the Metal Workers' Association and P. H. McCarthy of the Building Trades' Council, who settled the differences, but no conclusion was reached and another meeting was fixed for today. The contractors claim that it is simply impossible for them to pay the additional \$1 per day demanded by the men because their old contracts were all made upon the ruling rate at that time and an increase would mean serious loss.

DEMANDS REFUSED.

The negotiations for the settlement of the miners' strike at Randsburg, which has been on for several months, have come to a standstill. The Desert Mine Owners' Association, in a conference with President Nelson of the Miners' Union, refused to pay more than the old scale, \$2.50 for sinking shafts and \$3 for sloping and drifting, while the union insists upon a straight \$3.50 day for all miners and \$4 for the class of work and \$3 for shovels. The mine owners intend to force matters and it is learned that 200 non-union men are to be sent to the Yellow Aster at once. It is thought, however, that it will be some time be-

fore operations can be commenced, as many miners will have to be made to put the mine again in shape. There are said to be a number of new cave-ins as a result of the long shut-down.

CAR STRIKE ENDED.

The strike of street railway employees at Richmond, Va., was declared at yesterday. It had last only sixty-nine days and was settled with the streetcar company \$1,400; the strikers, in loss of wages, \$50,000; the State, for troops to maintain order, \$75,000, and the city, for special police, etc., \$5,000. One man was killed by soldiers. One man was fatally stabbed by another and scores of persons were more or less seriously injured.

TROUBLE IN PHILIPPINES.

George A. Tracy, recently foreman in the government printing office, has just reached San Francisco from the Philippines and claims that he was forced by Public Printer John J. Leech to resign. He charged that he had been instrumental in organizing the Typographical Union there, and had entered his name on the list of those asking for a charter. He further states that it is his intention to lay the matter before the International body and ask for an investigation and a hearing.

Ingles and Jackson are two clever singers and dancers, who are making their Pacific coast debut at Idora Park, and they are about as clever as any who have yet appeared at this popular place of amusement.

The next number on the program is Doris Lansberg, who gives several neat songs and dances that have made a great hit with the public so far.

Idora Park has had a triumphant reappearance at Idora Park in illustrated songs, and the applause that is accorded his every appearance leaves no doubt that he is strongly entrenched in the hearts of Idora Parkers.

The more the pictures at the conclusion of the performance are new, novel and entertaining, Forrest Seabury, the trick high diver, gives an exhibition of his acrobatic skills at the end of the performance in the theater.

The laughing gallery, coal mine, scenic railway, infant incubators, performing seals and sea lions and the numerous other attractions of the park are all appreciated.

There is a matinee at Idora Park every afternoon except Monday. Friday nights are devoted to amateurs. The cafe is on the upper veranda of the theater so no one need go away.

The admission to the theater is 10 and 20 cents. Idora Park is located on Telegraph Avenue and Fifty-sixth street. Take Telegraph Avenue car.

NO ZIONISM

IN RUSSIA

NEW YORK, August 26.—The Jewish Daily News of this city has received the following dispatch from Jacob De Haas, secretary of the American Federation of Zionists, who is attending the Zionist Congress, now in session at Basle, Switzerland: "During a discussion Dr. Herzl's statement that the Russian government would hereafter lighten the burdens of the Jews and favor Zionism, any would allow it to be propagated in Russia, was questioned. Dr. Herzl then informed him of the following letter, dated July 20, from Russian Minister of the Interior Von Plehwe: 'So long as Zionists evinced the desire to create an independent state in Palestine and promised to organize the population from Russia, a member of our Jewish subjects, the Russian government could very well be favorable to it. But from the moment this principal object of Zionism is abandoned in order to be replaced by a simple propagation of the name of Zionism, the Russian government will be very unfavorable to it. It is natural that the government cannot in any case tolerate this new departure of Zionism. It would not have any other result than to create groups of individuals perfectly strangers and even hostile to the peasant communities, and to the country at large, in each state. This is why the faith could not be placed in Zionism, but on the condition that it return to its old program of action. It could very well be favorable to it. But from the moment this principal object of Zionism is abandoned in order to be replaced by a simple propagation of the name of Zionism, the Russian government will be very unfavorable to it. It is natural that the government cannot in any case tolerate this new departure of Zionism. It would not have any other result than to create groups of individuals perfectly strangers and even hostile to the peasant communities, and to the country at large, in each state. CROPS AND POLITICS.

Kansas produced the banner wheat crop in her history this year, the yield for the State being 90,270,000 bushels. The average year's production of wheat in Kansas for the last three years is 82,970,000 bushels.

Commenting on this, an Eastern journal says, "With the return of good crops, Populism began to wane, and with the appearance of the bountiful wheat yields it practically disappeared as a political force."

Whereupon a Democratic paper sarcastically remarks that, it understood, wheat was grown in the soil and not in politics, and adds that favorable crop seasons cannot be ascribed to the influence of the tariff or the operation of the coining laws.

It is true that neither the tariff nor the coining laws have any effect on the seasons—neither causes droughts nor floods. But the abundant harvests of recent years have convinced the farmers of Kansas and Nebraska of the fallacy of the Democratic and Populist's assumption that the tariff and the demonitization of silver caused crop failures and low prices. A succession of poor harvests due to droughts, grasshoppers and unsatisfactory farming caused widespread distress in the extreme Middle West and this distress was aggravated by the exceedingly low prices of farm products during a period of years.

The Democrats laid all the trouble at the door of the protective tariff, although the low prices reached their nadir after the Cleveland administration had pulled down the protection wall, while the Populists and Silver Republicans ascribed the low prices to the gold standard.

From all over the West went up a cry for "a more and a fitter currency." Nobody undertook to explain, however, how a greater volume of currency or the debasement of our monetary standard could benefit people who had nothing to sell.

But a majority of the American people held sane to a wise course; they strengthened and confirmed the sound money principle and they restored the protective tariff. Favorable seasons came to the drought-stricken regions and with them came phenomenal crop yields. With the abundant harvests came a return of highly remunerative prices for agricultural produce. Thus farmers came to realize that the gold standard did not cause low prices nor the protective tariff crop failures.

Coincident with protection and sound money were good crops, good prices and good times, and consequently the farmers had no further use for the delusion that the only hope for prosperity was in free trade and free silver. They do not believe the tariff makes crops good, but it has been proved to them that the tariff is not responsible for bad harvests.

If the proposed laundry trust is really formed, patrons will probably find considerably more starch in their bills.

DEEPER WATER WANTED.

At the coming session of Congress an energetic effort should be made to get an appropriation for deepening the channel from the mouth of the Jettes to the foot of Fallon street to not less than twenty-five feet at mean low tide.

The appropriation contained in the last river and harbor bill is being expended in a way that will not allow the entrance of vessels of larger tonnage than previously entered the harbor. The channel was widened, but not deepened an inch. The widening permits of free navigation, but it does not increase the draft capacity of the ships that enter and clear at this port.

While a necessity existed for widening as well as deepening the channel, the improvement most urgently needed was a deeper channel. However, Congress left the money to be expended according to the discretion of the Army engineers and the engineers have chosen to give us a wider channel instead of a deeper one. Consequently we another grant of money to give us a greater depth of navigable water in the channel. Our wider channel will be of little practical benefit until larger ships of greater draft can clear.

The Board of Trade and the Merchants' Exchange should take this matter up vigorously and impress upon Senator Perkins and Congressman Metcalf the urgency of the deep water question. A memorial should be laid before Congress setting forth the facts and making plain the necessity that exists for deepening the channel. Our harbor interests are steadily growing in importance and they should not be neglected by either our mercantile leaders or our representatives in the National Legislature. Hence early steps should be taken for another energetic harbor improvement campaign.

While there is much debate over the effect of applying crude oil to the public roads, nobody seems to have closely inquired as to the effect of applying Standard Oil to the road to learning.

This is a third time a Shamrock has proved not to be the real thing.

OAKLAND TRIBUNE

William E. Dargle, President

SAVE LAKE MERRITT.

The people of Oakland should be awake to the consequences of changing the bulkhead line from Seventh street to First street. Previous attempts to have this done have failed only to be renewed again, which shows the necessity for organized and energetic resistance. The proposed change would involve the ruin of Lake Merritt as a flushing basin for the Main Lake sewer, which of course would compel the abandonment of the sewer system tributary to the Main Lake sewer. In turn this would endanger the health of the city and cause an enormous financial loss.

Spectacular reasons can always be given for a change that benefits some private interest at the expense of the public, but the reasons given for changing the bulkhead line to First street have again and again been exploded by competent engineers. No public purpose will be served by the proposed transfer, but it is clear that the change will injure Lake Merritt and damage the city's drainage system. In no respect can the city be made a gainer by the change. In short, the proposal involves the sacrifice of important public interests to private convenience.

If the citizens of Oakland neglect to voice an earnest protest against the scheme they will only have themselves to blame if the change should be made. They will have long time for repentence if they supinely allow their interests to be sacrificed without making the best possible defense.

Mayor Carter Harrison of Chicago tells a newspaper reporter that he will not be a candidate for re-election. This was in Butte, Montana, mind you. By the time another election in Chicago becomes necessary Mayor Harrison will be prepared to swear the reporter is a liar and that he never was in Butte. This is not the first time Mayor Harrison has declined a nomination before it was offered to him. But he is still in office.

LIBEL IN KENTUCKY.

Kentucky is threatened with an interesting series of libel suits to be brought against the newspapers of that State. Judge Hargis, the boss of Breathitt county, the feud center, has announced his intention of bringing a libel suit against every newspaper that, coupled his name with the recent assassinations in Breathitt county. Just one of the men convicted of the murder of James B. Marcus, is a nephew of Hargis, and Hargis testified in his behalf and has exerted all his personal and political influence to secure a verdict of acquittal. Marcus was a personal enemy of Hargis, who abused him after his assassination in terms of viperish hate. The other men assassinated in Jackson recently were men opposed to the Hargis faction, and men of the Hargis faction are accused of shooting them from ambush.

Hargis now proposes to bring suit in Breathitt county against every newspaper that printed the facts. The law of Kentucky permits actions for libel to be brought in any county in which a paper is circulated. As Hargis is absolute master of the machinery of justice in Breathitt county, the size of the judgments will probably be gauged by his moderation.

But the newspaper proprietors will probably object to going up against a jury in Breathitt county, well knowing what the result will be and in case the suits are brought will demand a change of venue. This they must get, for it is notorious that they would have no earthly show for obtaining justice from a gang of moonshine high-binders controlled by the plaintiff.

The people of San Francisco are not without promises of good government. Martin Kelly threatens to put up a reform ticket.

The rage for organization in all lines of business and interests has led to the formation of a singular organization in North Carolina. It is an oath-bound protective association formed by the moonshine distillers of the State. Recently one of the members of this organization gave to the officers the details of the remarkable association, and the officers speedily traced up twenty-one illicit distilleries whose owners were members of the organization. The officers were entirely ignorant of the existence of the strange organization till informed by the traitor, who had become enraged at the leaders of the brotherhood.

The San Francisco Call has fallen into the bad habit lately of making gross statistical errors. On Tuesday it stated editorially that "the negroes in Mississippi outnumber the whites by about 400,000." The precise figures, according to the Federal census of 1900, are: Whites, 641,200; negroes, 907,630. The difference is, therefore, 266,430, instead of "about 400,000," which is a good deal in a total population of 1,551,270.

The dispatches say the Shamrock closed her stern sheets in a spanking breeze. The practice of the nursery seems applicable to yachting.

NEWS FROM TEXAS.

Recently a party of scientists and horticulturists from Texas made a tour of the fruit-growing districts of California for the purpose of studying California methods of cultivating, picking, packing, curing and marketing fruit. Since their return home they have been declaring California to be the Eden of the Universe. But the most remarkable statement coming from them is one to the effect that California is going out of the peach business. That will be news to a good many peach growers in this State. Colonel S. H. Dixon, one of the Texas party, tells the Houston Chronicle that Texas suffers in comparison with California by reason of lack of development. We fancy there are a good many points on which comparison would seem invidious. After praising California to the skies, Colonel Dixon said he believed Texas has the finest fruit future of any State in the Union. He observed that California is going out of the peach business. The growers are turning their attention to other classes of fruits, which they can ship across the continent better after having matured. He believes this is Texas' chance. California will go practically out of the peach business in the next few years.

We invite Colonel Dixon to come back again a few years hence and eat some real good peaches with us. He can then judge if California is going out of the peach business.

Chips From Other Blocks.

John D. Rockefeller lost \$80,000,000 by the recent decline in stocks, but as it was all water and not oil John isn't losing any hair over it.—Chicago News.

Another candidate in Ohio has adopted the automobile in his campaigning. We may yet see the United States Senate automobile by Hanna.—Atlanta Journal.

The fact that Russell Sage has reached his eighty-eighth year proves that he sticks to apples that are ripe.—Rochester Herald.

General Young will hand down to posterity a Lieutenant-General's uniform, worn only weak and practically as good as new.—Chicago Tribune.

Mr. Jeffries is not as good a talker as Mr. Corbett, but in a pugilistic sense he knows what's what.—Washington Post.

There are indications that plans are forming to make General Wood a burning issue in the Senate.—Baltimore American.

Reflections on our glorious climate are dangerous to the reflector. A man who pleaded sunstroke in police court the other day was sent to the workhouse for a term of several days.—Minneapolis Times.

The Turkish army is still in a high state of demoralization. It seems to be good for nothing but fighting.—Chicago Tribune.

People who claim that spectators should never swear at a baseball game, merely show how ignorant they are of the game.—Salt Lake Tribune.

POINTED PARAGRAPHS.

Lending a man a dollar is a deed of trust.

An obnoxious form of light literature is the gas bill.

Many a man's nose blushes for the acts of his elbow.

Two heads are undoubtedly better than one in a drum.

Wise merchants put their show windows in the newspapers.

The best possible throw of dice is to throw them into the sewer.

Lack of interest in a story is enough to prove its truthfulness.

Were it not for their vanity it would be impossible to please some people.

Fully half our earthly troubles is the result of calling things by another name.

When some men get their freedom in this glorious land of the free they are in the ex-convict class.—Chicago News.

THE COMIC MUSE.

Lo, the poor Indian, whose untutored mind assists him always to come out behind! The paleface comes with manner soft and bland And by a little clever sleight-of-hand He separates the red man from his land.—Chicago News.

NO SCOTCH CONCEALMENT. A damsel who played at croquet Left her little foot in the wuter— She hit it a whack,

Then muttered: "Alack! In golf I should know what to sust!"—Chicago Tribune.

DRAW THE LINE.

A gentlemanly lady doth Amuse us,

But when it comes to ladylike old maids,

Excuse us!

—New York Sun.

A WORD TO THE WISE.

Because his liver was out of whack,

He fanned the way looked dark ahead,

Wherefore he went, with a sullen frown,

To cutting his people's wages down.

To things were going to pot, he said.

Because he had a bilious attack.

His men all struck and wouldn't go back.

And ruin came, as he feared it would;

There's a moral to this poor little tale,

Which is that it's dangerous to fall.

To keep your liver a-going good.

—S. E. Kiser.

Hints for the Ladies.

For excessive perspiration of hands and feet, use a powder made of two and one-half ounces of powdered talcum, one-half ounce of starch and two scruples of salicylic acid.

For an eruption on the arms make a wash of precipitated sulphur, one dram; tincture of camphor, one dram; glycerine, one dram; rose water, four ounces. Shake the bottle before using and apply with a linen pad.

Girdles are better than belts. Belts are commonplace and contradict every line of the body; girdles give grace. About color, it is better to have cheap material and good color than vice versa. Color is the language of harmony.

To stimulate and thinken the eyebrows the following lotion, applied nightly, will be found beneficial: Oil of rosemary, ten drops; chloride of ammonia, ten grains; camphor, five grains; iodoform, one dram; common salt, one dram; water, one ounce.

In walking the motto should be a free and unrestrained one from the hips, with a firm, free and easy step. Correct walking exercises the muscles, quickens the breathing, improves the digestion, keeps the body in health and, of course, brightens the complexion.

Thimble collecting is one of the latest fads. Mrs. Vanderbilt is extremely proud of possessing a thimble which originally adorned the finger of Queen Elizabeth, one very small and plain silver specimen belonging to Queen Victoria when a girl of 14, another used by Princess Alice and much worn and a most dainty gold and enamel thimble once owned by the princess of Wales.

Not content with the embellishment of small articles of furniture a New York woman has decorated the walls of her studio, dining-room and music room with panels in burl wood. These panels form a frieze. One set represents the story of the hunt from the point of view of the animals and birds; another shows a sea nymph riding in a seashell, escorted by fish, and the third embodies the spirit of music, as suggested by Shelley's "Ode to Music."

Over in London they are actually wearing the long, dingle-dangle earrings that have been threatened for years. Their revival was almost inevitable, in view of the "droopy" fashions that have prevailed this year, and, now that they are being worn, English women are finding out that they are not so unbecoming as they have been supposed to be. It may be said in defense of the long earrings now worn that they are more artistic in design and rather less ridiculous than were those of half a century ago.

Time was when a woman used any perfume which pleased her, in and out of season. Then came her craze for associating some particular perfume with one's self, so that every article of personal use or wear, from the notebook to a handkerchief, should exhale one's personality, so to speak, in terms of white lily or peau d'espeche or crabapple. Now fashion has gone a step farther and evolved a charming plan of using certain scents with certain clothes and on certain occasions, being careful only that it shall all match. In consequence, a large stock of fashionable perfumes adorns the dressing-table of the woman of fashion, and odors are made a subject of as much study as stocks or lingerie.

SARAH SNOOK'S SECRET.

A Single Word Reveals It and All Who Would be 103 Should Remember: Pie.

SARAH SNOOK'S SECRET.

A Single Word Reveals It and All Who Would be 103 Should Remember: Pie.

Next in number to the recipes for the banishments of warts, are the recipes for the attainment of long life. The philosopher who buys an annuity and resolves to have length of days is bewildered by the multitude and variety of the means of reaching that end. Early to bed, late to bed; plenty of exercise, not at all; no smoking allowed, smoke all you please; water from the brook, the drink of Israel's champion, whisky in moderation; stick to a diet; eat what you like; avoid tea and coffee, swig tea and coffee freely; live on cereals, live on vegetables, live on meat or milk; be as regular as clockwork, be irregular as Old Parr or the crankiest verb; you can find among the centenarians examples of almost every system and schedule and want of them. We knew of a fine old fellow at 97 who used to preach to his grandchildren the virtue of a walk on the railroad track. He was deaf as an adder and his grandchildren used to do the worrying. Another patriarch of our acquaintance has drunk hard cider out of a tin dinner, before breakfast, for years that outran memory. Perseverance or genius, who knows? Sometimes it seems as if these secular worthies had some incommunicable charm, as if they had put death to sleep or bound him tight for a period, as Player Jack did in the folktale. They cannot be expected to publish a secret which would make old age common and deprive them of their distinction.

But the grand discovery has been made at last and the years of the whale or the vulture are now within reach of the wise and good. Mrs. Sarah Snook of St. Joseph, Mo., was 103 the other day. She walks a mile a day. Without spectacles she can see to read much better than most young folks of this myopic and astigmatic age. She is as sound as a bell, and why? What is her preservative? With what curious meat or cordial does she prolong her days and need no amendments to her constitution?

Sarah Snook eats pie. Eats it early and often, for breakfast, luncheon, tea, dinner, supper and between meals. For three generations she has thrived on pie. Pie has been the strength of her youth, the companion of her middle age, the staff of her old age. If there are any older pie eaters, it is because they have eaten more pies.

For everything brings us back to the pie of pie, the solid elixir of life, that tonic of manna of the strong, that builder of enduring nerves and bones, pie, the strenuous and the staying. It may have slain its thousands. Why should weadlings live? The great and good and equal to it, it sustains, or is capable of sustaining, for centuries. But, it may be said, even faithful pie eaters must go at least upon their meager voyage. And whose fault is it? Is it not notorious that mistaken affection interferes with the diet of the old and deprives the seasoned stomach of the habitual foot?

Grandpa wants pie. Give him gruel. He doesn't know what he wants. He is bad for him. You shudder at the impious piety of those tribes that eat their old from considerations of love and affection. Is any better to take pie from the pie-eater? The case of Sarah Snook should bring remorse to many persons who imagine themselves to be highly scientific and share with many persons who affect to despise the pie-eating and pie-eaten alike. Pie is the grand secret; and even "Tivoli's" soul, who would hold that better 20 in Manhattan than 100 in St. Joseph, cannot afford to neglect Mrs. Snook's "Discovery."

For Over Fifty Years

(Official)

THE BOARD OF SUPERVISORS.

Adjourned Regular Meeting of the Board of Supervisors Monday, August 17, 1903.

Pursuant to adjournment the Board of Supervisors met at 10 a.m. The roll was called and Supervisors Horner, Rowe, Talcott and Chairman Mitchell found to be present. Supervisor Kelly absent.

The minutes of the meeting of August 10th were read and approved without alteration.

REPORTS OF COUNTY AND TOWNSHIP OFFICERS.

The following reports of County and Township officers were received and ordered placed on file:

C. F. Chalmers, Health Officer, for July 1, 1903.

A. McDonald, Road Foreman Murray Road District, from June 1 to July 1, 1903.

A. McDonald, Road Foreman Murray Road District, from July 1 to August 1, 1903.

J. M. Brewer, Road Foreman Washington Road District, from July 1 to August 1, 1903.

William Day, Road Foreman Vallejo Road District, from July 1 to August 1, 1903.

Statement of fees earned and fines imposed by J. H. Taylor, Justice of the Peace of Murray Township, and P. C. Quinn Justice of the Peace of Pleasanton Township, were received and ordered filed.

AFFIDAVITS OF PUBLICATION.

Affidavits of publication were received as follows:

Board of Equalization—Fruitvale Progress, Alameda Encinal, O'Reporter.

Macadamizing Main County Road—Elmhurst Review.

Steam Heating Plant—Oakland Enquirer.

Macadamizing Main County Road from Mount Eden to Haywards—Oakland Tribune.

Construction of Bridge at Cary Place—Oakland Tribune.

REQUISITIONS.

The following requisitions were received:

James B. Barber, Tax Collector, for blanks. Granted.

John P. Cook, County Clerk, for seal.

Referred to the Finance Committee.

W. C. Clark, Superintendent County Infirmary, various supplies. Referred to Hospital Committee.

PETITION FOR CREDITS.

On motion of Supervisor Talcott, seconded by Supervisor Horner, the applications for credits of M. T. Flaherty for five days were granted by the following vote:

Ayes—Supervisors Horner, Rowe, Talcott and Chairman Mitchell—4.

Absent—Supervisor Kelly—1.

APPLICATIONS FOR LIQUOR LICENSES.

The following made applications for liquor licenses, viz:

William S. Santos, Centervale; Joseph Ethan & Co., Fruitvale; J. F. Velasco, East side of Fruitvale avenue; and East Fourteenth street.

The applications being correct in form and the required number of signatures were ordered signed, and the bonds accompanying same and were referred to the Judiciary, Printing and Licensing Committee. Hearing on applications being held Tuesday, August 25, 1903, at 10 o'clock a.m. in the public room of the proposed municipal corporation, of requisite notice being directed to be made as follows:

J. F. Velasco and Joseph Ethan & Co. in the Fruitvale Progress, William S. Santos in the Washington Standard.

HEARING ON APPLICATIONS OF SCHNARF AND PURPLE.

In the application of Fred C. Schnarff, request of W. K. Tullock for permission to withdraw name from recommendation was granted, and further hearing on the application and protest was continued for one week to enable a survey to be made.

ACCEPTANCE OF CONTRACTS.

The Surveyor reported that E. B. & A. L. Stone Co. had completed their contract for the macadamizing of portions of the County Road from the town of Elmhurst to the town of Pleasanton, and also their contract for the grading and draining of the County Road around Lake Chabot.

In accordance with his recommendation and on motion of Supervisor Talcott, the work was accepted by the following vote:

Ayes—Supervisors Horner, Rowe, Talcott and Chairman Mitchell—4.

Absent—Supervisor Kelly—1.

Thereupon the following notice of election was read in full by the Clerk:

ELECTION NOTICE AND PROCLAMATION.

Notice of election to be held within the boundaries of the proposed municipal corporation, holding election on the 5th day of September, A. D. 1903, for the purpose of determining whether said proposed municipal corporation shall be incorporated, to consist of five members, a clerk, who shall be ex-officio tax and license collector, and a marshal, who shall be ex-officio tax and license collector, and for blanks. Granted.

In the application of Chris Esterle affidavit of A. N. Frost purporting to show that petitioner had not the written recommendation of six out of the nearest neighbors to sign the matter was continued for one week to enable a survey to be made.

THE APPLICATION OF TASSA JARA BRIDGE.

Irus Fervier requested an extension of ten days to extend his contract for the construction of a concrete bridge across Tassala Creek at Santa Rita Junction. The request was granted.

PETITION FOR ABANDONMENT OF A PORTION OF HIGH STREET.

A petition was presented by A. G. Under, praying that the Board rescind and amend the order adopted May 1, 1903, by which High Street in Alameda Township, was widened to thirty feet, that portion of the street which crosses rectangular the land of said petitioners, was taken for public use. The petitioners also presented a bond in the sum of \$100 with William Brannan and S. M. Edwards as sureties, which bond on motion of Supervisor Talcott, seconded by Supervisor Rowe, was approved by the following vote:

Ayes—Supervisors Horner, Rowe, Talcott and Chairman Mitchell—4.

Absent—Supervisor Kelly—1.

SCHOOL BOND ELECTION. CASTRO VALLEY SCHOOL DISTRICT.

Report of Trustees of Castro Valley School District, school bond election held in said district on the 1st day of July, 1903, was presented and referred to District Attorney for opinion as to sufficiency of proceedings.

SACRAMENTO STATE FAIR.

A communication was received and read from the Executive Committee of the State Fair. Therefrom, J. M. Jones, Esq., change addressed the Board, urging an appropriation for a suitable exhibit. The matter was taken under advisement by the Committee of the Whole.

FRUITVALE INCORPORATION.

The matter of the proposed incorporation of the town of Fruitvale the following resolution was introduced by Supervisor Talcott:

RESOLUTION DETERMINING BOUNDARIES AND NUMBER OF INHABITANTS AND FIXING DAY OF ELECTION.

(Fruitvale Incorporated.)

Whereas, There was filed with this Board on the 22d day of June, A. D. 1903, a petition by more than fifty (50) of the qualified electors within the certain district hereinabove particularized and set forth, and verified by three qualified electors within the proposed limits of said district, praying the incorporation of a municipal corporation, under and in accordance with an Act entitled, "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13, 1883, and the amendments thereto; and,

Whereas, The Board did, on the 13th day of July, A. D. 1903, appoint Robert Turnbull as enumerator and canvasser to ascertain the number of inhabitants within the proposed limits of said proposed corporation, which said limits of said corporation are hereinabove particularly described; and,

Whereas, The said Robert Turnbull having filed with this Board the 3d day of August, A. D. 1903, a verified report of the inhabitants of said proposed corporation, showing the number of inhabitants within the limits of said proposed corporation to be two thousand six hundred and twenty-nine (2,629) and,

Be it Resolved, That the number of inhabitants residing within the boundaries of such proposed corporation, which said boundaries are hereinabove particularly described and set forth, and verified by three qualified electors within the proposed limits of said district, praying the incorporation of a municipal corporation, under and in accordance with an Act entitled, "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13, 1883, and the amendments thereto; and,

Whereas, The said Robert Turnbull having filed with this Board the 3d day of August, A. D. 1903, a verified report of the inhabitants of said proposed corporation, showing the number of inhabitants within the limits of said proposed corporation to be two thousand six hundred and twenty-nine (2,629) and,

Be it further Resolved, That the boundaries of such proposed corporation, which said boundaries are hereinabove particularly described and set forth, and verified by three qualified electors within the proposed limits of said district, praying the incorporation of a municipal corporation, under and in accordance with an Act entitled, "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13, 1883, and the amendments thereto; and,

Whereas, The said Robert Turnbull having filed with this Board the 3d day of August, A. D. 1903, a verified report of the inhabitants of said proposed corporation, showing the number of inhabitants within the limits of said proposed corporation to be two thousand six hundred and twenty-nine (2,629) and,

Be it further Resolved, That the boundaries of such proposed corporation, which said boundaries are hereinabove particularly described and set forth, and verified by three qualified electors within the proposed limits of said district, praying the incorporation of a municipal corporation, under and in accordance with an Act entitled, "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13, 1883, and the amendments thereto; and,

Whereas, The said Robert Turnbull having filed with this Board the 3d day of August, A. D. 1903, a verified report of the inhabitants of said proposed corporation, showing the number of inhabitants within the limits of said proposed corporation to be two thousand six hundred and twenty-nine (2,629) and,

Be it further Resolved, That the boundaries of such proposed corporation, which said boundaries are hereinabove particularly described and set forth, and verified by three qualified electors within the proposed limits of said district, praying the incorporation of a municipal corporation, under and in accordance with an Act entitled, "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13, 1883, and the amendments thereto; and,

Whereas, The said Robert Turnbull having filed with this Board the 3d day of August, A. D. 1903, a verified report of the inhabitants of said proposed corporation, showing the number of inhabitants within the limits of said proposed corporation to be two thousand six hundred and twenty-nine (2,629) and,

Be it further Resolved, That the boundaries of such proposed corporation, which said boundaries are hereinabove particularly described and set forth, and verified by three qualified electors within the proposed limits of said district, praying the incorporation of a municipal corporation, under and in accordance with an Act entitled, "An Act to provide for the organization, incorporation and government of municipal corporations," approved March 13, 1883, and the amendments thereto; and,

IN COMMISSION TOMORROW.

NEW CAR FLOAT WILL BEGIN ACTIVE CAREER ON BAY.

Car float No. 1, recently completed for the Southern Pacific Company, will go into commission tomorrow.

For the last two days men have been at work cleaning her decks and preparing her generally for her future work.

The float will be used to convey freight cars between the Peralta street slip and San Francisco and will be followed soon by float No. 2.

The dredger which has been dredging out the slip at Peralta street has just finished her job and this has been the only reason for so long keeping the barge or float tied up.

PAINFUL INJURIES RECEIVED DURING THE DAY'S WORK.

C. McComb hurt his right arm yesterday while helping John Nethercott and George Harris lift some heavy lumber. McComb strained the ligaments in his biceps.

Frank Fraga, blacksmith helper at the big round fire No. 1 nearly ruptured himself Monday afternoon while drawing the heavy frame for engine 200 out of the fire. The frame struck him in the right shoulder and Fraga was unable to move a week.

Tom Fraga, blacksmith helper at the big round fire No. 1 nearly ruptured himself Monday afternoon while drawing the heavy frame for engine 200 out of the fire. The frame struck him in the right shoulder and Fraga was unable to move a week.

AMONG THE VISITORS AT THE SHOP YESTERDAY.

Wallace T. Rutherford, a well known attorney at law of Napa visited his brother at the machine-shops yesterday. Mr. Rutherford spent a pleasant hour with the boys.

Billy Hickman who was foreman of the lye pit up to a short time ago, returned yesterday from an extended trip to Mexico. While there he became interested in several quartz claims which he hopes will make him "all right."

N. Brown, second refrigerator machinist of the steamship Sierra, visited old friends at the shop yesterday. Brown said he wished he was back in his old berth.

Dick Robertson, who was made general foreman at the Dunsman shops recently, visited his old friends yesterday at the shop.

NOTES AND PERSONALS GATHERED ABOUT THE YARDS.

George Adams started running the axle-lathe yesterday morning.

Charles Milner had the honor of laying the corner-stone of the new motor-house yesterday. He deposited among other things copies of the Oakland Evening papers, a history of the shops, and a five cent piece.

Foreman M. L. Rudeck, of the gas-house, will leave shortly for a two-weeks hunting trip to Siskiyou county. His brother, Engineer Tom Rudeck, also a foreman, have just returned from that locality. Tom goes back to work Monday.

Jack O'Brien and son are both on the sick list for a few days. They hope to be out again and at work by the end of the week.

Passenger engine 1672 is over the round house drop getting her shoes repaired and other minor necessary repairs.

E. Kabisus of the tin shop is rushing work on a hot air dust warmer for the river steamer Modoc.

Monte Montgomery of the copper shop will go to Bakersfield shortly as foreman of the copper shop there.

Foreman James Murphy is putting a new water spout on the big water tank, something that has been needed for years. Foreman Lee is supervising the job.

One of the frames of engine 1211 is in the blacksmith shop getting a broken jaw repaired.

W. Gordon has offered to run the boilermaker's float by air propelling him to borrow a couple of cylinders from the Southern Pacific Company.

Joe Eiven laid out yesterday in order to escort a party of Eastern friends up Grizzly Peak.

George Mellus is back to his lair after a few days' lay off and A. E. Jensen is back to his planer.

George O'Brien, one of the most expert cutters on the Pacific coast, has challenged William Cooper, of Chile, to a cutting match.

H. Haig's new grinding machine is now in operation.

Jack Savin has discovered a new way to straighten engine frames. His method will do away with heating the frame and then beating it out straight.

G. H. Ingram, the well known time clerk at the yards, will take a new position next month as chief clerk at the Sixteenth street shops in San Francisco. Jerry Dunn will take his place on this shift.

J. J. Flynn, one of the shop's G. A. R. vets is down with a bad cold he contracted during the hard campaign last week. He has been off duty for several days.

PRODUCE MARKET.

CEREALS AND MILL PRODUCTS.

FLOUR—Net Cash, Family Extra, \$4.00@4.60; per bbls. Bakers' Extra, \$4.40@4.60; Oregon and Washington, \$4.90@4.40.

CRUSHED UNDER CARS.

TEN-YEAR-OLD BOY IS KILLED BY TRAIN AT EMERY. VILLE.

After lingering several hours, little Arthur Schuler, the 10-year-old son of Henry G. Schuler, died last night from the injuries he received while attempting to board the 4:30 p. m. train at B street station, Emeryville.

While playing with other boys the lad attempted to ride by clinging to the train gates. In making his lunge he fell under the wheels. Before the train could be brought to a standstill almost five cars had passed over the child, crushing his legs and fracturing his skull, injuring him so seriously that on account of tendons and hemorrhaging his doctors considered it unavoidable to attempt any operation.

O. D. Hamlin and a corps of assisting physicians did all they could for the little boy, who remained conscious to the last.

The child died in the arms of his mother late last night.

TURKISH CONSUL ARRESTED.
PHILIPOLIS, Bulgaria, August 26.—The Turkish consul, accompanied by a suspected person, arrived here last evening from Constantinople. They were stopped by a policeman, who demanded their passports. An altercation ensued and the consul took his companion to the police station. The project was discontinued, but the consul is not satisfied and has presented a strong protest, demanding severe punishment for the perpetrator of what he calls a serious assault upon himself and his friend.

BUFFALO PROFESSOR DEAD.

NEW YORK, August 26.—Dr. Christopher G. Friedman, dean of the Buffalo Law School, is dead at a hospital in this city from a surgical operation. He was born at Charleston, S. C., July 18, 1857, and had been a professor of law at the University of Missouri for ten years. For six years he had the same position at New York University. Dr. Friedman was a author of a number of books and papers on legal topics.

EBELL SOCIETY PLANS FOR AN INTERESTING SEA- SON.

The fall season of the Ebell Society will open Tuesday, September 1st, with a business meeting at 3 p. m., when certain proposed amendments to the constitution and by-laws will be voted upon. There will also be the adoption of a design for a club pin.

Tuesday, September 8th, there will be a luncheon at 12. The music for the day will be under the direction of Mrs. H. G. Thomas, chairman of music, and will consist of (a) "In Autumn" Franz; (b) The Main Suit," Brahms; by Mrs. Charles C. Hughes. There will be an address by Mayor Tracy upon the subject "How Women May Assist in Municipal Progress." Mothers who are unable to secure seats for this lunch on will be provided with chairs near the entrance during the program. It is especially desired that there be a large attendance of members on this occasion.

Tuesday, September 16th, opening for inspection of the children's room of the free library.

Tuesday, September 22d, meeting of the Shakespeare section, of which Mrs. J. R. Scupham is chairman. Discussion upon how to study Shakespeare; two songs by Schumann; Ave Maria Rite, by Miss Willardine Koenig; violin obligato, Mrs. E. N. Ewer; accompanist, Miss Pauline Collins; etc. In costume from "The Winter's Tale"; Shakespeare, (a) trial scene; (b) statue scene; M. S. W. B. Buckingham.

Tuesday, September 29th, "Some Famous Books and Their Makers," Mr. Preston A. Perry, illustrated by stereopticon views and by several hundred rare volumes. Members may bring their own books for inspection and information.

The Auditorium Decoration Committee consists of Mr. Edgar Stone, chairman; Mrs. E. N. Ewer, Mrs. H. G. Kendall and Mrs. F. T. McHenry.

MRS. CARLTON'S PARTY.

Mrs. Harry P. Carlton was the hostess yesterday at a very pleasant affair given in honor of Mrs. Herbert D. Gaskill. The Carlton cot on Webster street was fragrant with flowers. Five-handed euchre was the game enjoyed.

Mrs. Carlton was assisted in entertaining by Mrs. Edw. rd. Collins, Mrs. Vernon Waldron, Mrs. Edith Gaskill and Mrs. Burr Eastwood.

Among the invited guests were: Mrs. Louise Allender, Mrs. James I. Allen, Mrs. Clara Archibald, the Misses Anderson, Mrs. Gilbert Blucher, Mrs. John Brooking, Miss Lizzie Boyer, Mrs. Allen Hardwood Babcock, Miss Cordelia Bishop, Mrs. George Birnman, Miss Grace Bartlett, Miss Kate Beaubien, Mrs. W. S. Baxter, Mr. L. S. Birchard, Miss Mabel Berry, M. S. T. C. Conant, Miss May Coogan, Miss Gertrude Carlton, Miss Pauline Colins, Mrs. D. Edward Collins, Mrs. Charles Egbert, Mrs. Charles J. Evans, M. S. Frederick R. Dallam, Mrs. George De Golia, Mrs. William Ede, Mrs. Burr Eastwood, Mrs. George Gross, Mrs. Ira. W. Edward Grinich, Miss Edith Gaskill, Mrs. Carlton, Mrs. Herbert D. Gaskill, Mrs. Edward H. Gaskill, Mrs. James A. Allen, Mrs. Edward H. Gaskill, Mrs. Carey Howard, Mrs. Charles G. Hughes, Mrs. Bert Hubbard, Mrs. William Higinbotham, Mrs. Frank L. Kendis, Mrs. Isaac Kendall, Mrs. Newton Koser, Miss Wilhelmina Koerig, Mrs. Irving C. Lewis, the Misses Ida and Ruth Larkey, Mrs. Alonso Larkey, Mrs. Charles Lovett, Mrs. A. F. Merriam, Mrs. William Milwain, Mrs. James A. Morrow, Mrs. Mollie Morrow, Mrs. William E. Miles, Mrs. Frederick E. Morse, Mrs. Seth Mann, Mrs. Frank McHenry, Mrs. Seth Martin, Mrs. I. A. Noble, Mrs. I. Ernest Nicholson, Miss Margaret Olesce, Mrs. E. W. Owen, Mrs. Edward Olesce, Mrs. Charles E. Parcells, Mrs. James Pease, Mrs. David Rue, Mrs. Alfred von de Roy, Mrs. Forest Rowley, Mrs. George Shattuck, Miss Florence Stewart, Mrs. Frederick Stratton, Mrs. Charles Stock, Mrs. Frederick Stock, the Misses Scupham, Mrs. James L. Son, Mrs. Harry Thao nas, Mrs. Hayward G. Thomas, Mrs. Churchill Taylor, Mrs. Felton Taylor, Miss Harriet Taylor, Mrs. Vernon Waldron, Mrs. Wilbur Wilson, Mrs. Frank Woodward, Mrs. C. D. Vincent, Miss Aphelia Vance, Mrs. Alexander Young and Miss Eva Mae Yorker.

BACK FROM TRIP.

Mr. and Mrs. Clement Rowlands have returned from an extended trip, which included Denver, British Columbia, Portland and Seattle. They have been away about six weeks and Mr. Rowlands' health has been detrimentally affected by the tour. He will return to his post as director of the First Presbyterian Church choir next Sunday, September 1. Mr. Rowlands will resume his vocal class and may be found after that date at his studio in the annex of the church.

MARRIED IN CHURCH.

J. H. Gotts, a brakeman in the employ of the Southern Pacific Company, was married Monday to Miss Jennie Blaker, daughter of Captain Blaker of the steamer Berkeley. The ceremony was performed in the parlors of the German Lutheran Church by Rev. J. Finding, pastor of the church.

The wedding was a great surprise to the friends of the young people as well as to all of the Southern Pacific employees.

HOME WEDDING.

A very pretty home wedding was solemnized Sunday, August 23, at the residence of Mr. and Mrs. Charles J. Raleigh, 1715 Madeline street, when the daughter, Miss Mildred Raleigh, became the bride of L. Oren Jacques. The young people were exquisitely decorated in pink silk and ivy and sweet peas.

At the conclusion of the ceremony, which was performed by Rev. Mr. Bailey, a dainty luncheon was served. Only relatives and a few intimate friends were present. The newly married pair were surrounded by many handsome and costly wedding gifts.

After a brief honeymoon Mr. and Mrs. Jacques will reside at their new home at 95 Union street.

Among those present at the wedding were Mr. and Mrs. L. S. Simmons, Mr. and Mrs. C. J. Raleigh, Mrs. Springer, Mrs. Miss Annie Rohrbach, Victor Watson, Edward Campbell II, Miss Edna Raleigh, Charles E. Rogers and Mrs. M. O. Van Valkenburg.

MISS SOHN ARRIVED.

Henry Dassell, who has made threats against Sheriff Bishop under the delusion that the office properly belonged to him (Dassell), was arrested at Hayward's last night and is now in the detention ward at the Receiving Hospital charged with insanity.

The Sheriff's force has been searching for Dassell for several days, it being rumored that he had purchased a pistol and ammunition with which to kill Bishop. When arrested a toy pistol was found in his pockets.

ONLY A TOY PISTOL.

WILL CALL ON THE PRESIDENT.

ARCHBISHOP HARTY OF MANILA.

WASHINGTON, D. C., August 26.—A dispatch received at the Catholic University from Rome states that Archbishop Harty of Manila and Monsignor Edward Fowler, his secretary, have left Rome and are on their way to the United States. They will call on President Roosevelt and then will proceed to San Francisco, from whence they will sail for the Philippines.

UTMOST LIMITS OF BARBARISM.

TURKISH REPRESSIVE MEASURES IN MACEDONIA ALARM POWERS.

PERSONALS.

Mrs. Frank Bagley, wife of a prominent doctor of Mexico, is spending a few weeks with her friends, Mr. and Mrs. Joseph Parker of Oakland.

Miss Anna Pratt is visiting Miss Loraine Wilson of Eden Park avenue, Fruitvale.

Mrs. William Davis, Miss Rose Davis and Miss Iddella Messmer have been visiting in Monterey and Pacific Grove for the past two weeks.

ASSAULTER IS HEAVILY FINED.

Luther Davidson was found guilty of battery in the Police Court by Judge Samuels this morning, acting for Judge Smith. The accused was one of a quartet of sporty individuals who assaulted Jacob Bills and Charles Kemp in Foothill Sunday last because the persons assaulted would not give them a ride in a taxi, which the former were hitching up at the time.

The companions of Davidson were discharged as they could not be connected with the offense. In sentencing Davidson, Judge Samuels said:

"There is no doubt whatever in my mind that you are of the race of brutes which was evident that was had already been declared against Bulgaria. It was proper to be sentenced, but the state of Bulgaria cannot be expected to be satisfied with such a fine as is to be paid. It is further stated that although the Russian squadron was withdrawn from the Dardanelles, it is well known that in case of an invasion would occur from this direction.

In the special dispatch from the East, it is stated that the Russian squadron is to be sent to the Dardanelles.

According to reports from Constantinople, a rumor was current that war had already been declared against Bulgaria. It was proper to be sentenced, but the state of Bulgaria cannot be expected to be satisfied with such a fine as is to be paid. It is further stated that although the Russian squadron was withdrawn from the Dardanelles, it is well known that in case of an invasion would occur from this direction.

TURLOCK SYSTEM IS NOW VERY POPULAR

PROF. FORTIER TELLS OF THE
CANAL SYS.
TEMS.

BERKELEY, August 26.—Professor Samuel Fortier, the irrigation expert of the University of California, who recently began investigation into the irrigation systems of California, returned today from an inspection of the Turlock and Modesto canals in the San Joaquin Valley. His tour extended over San Joaquin, Modesto, Merced, Stanislaus and Fresno counties and his observations will be embodied in a report to be issued.

Professor Fortier is surprised at the progress too late to observe all the ramifications of its great irrigation systems, but he saw enough to convince him that they are of great value to the State and are commercially important. When the canals are tapped again he proposes to visit the district and make some practical suggestions for the benefit of the farmers and irrigation companies. Professor Fortier says:

"I found the Turlock irrigation system to be well ordered. It is more popular than it was at first, and all irrigation is now well organized. It is hard to attack the bonds and stocks of the other alfalfa is one of the best dairy foods, and I notice that a good many of the landholders down there are turning their attention to dairying and dairying is very profitable."

"The Modesto canal has not yet been opened, but it will be as soon as the Tuolumne River rises. The Turlock canals are the Modesto, on the south, and the Merced, on the north. The Modesto canal, as is estimated, will be 26,000 acres of land. There will be some trouble with it at first from scrapes, but this will be overcome."

Professor Fortier is working under an appropriation of \$50,000 made by the Government and the State for investigation of the irrigation systems of California, with the design of assisting the farmers, orchardists and dairymen.
